

# Clinical Pearl: Humate-P

- Combined Von Willebrand Factor and Factor VIII complex
- Von Willebrand Disease (VWD)
  - Deficiency or missing the clotting protein von Willebrand factor (VWF)
- Hemophilia A
  - Deficiency in Factor VIII
- Each vial of Humate-P contains units of **BOTH**:
  1. von Willebrand factor:Ristocetin cofactor (VWF:RCo)
  2. Factor VIII
- Knowing which component to dose with is critical!

# Dosing Humate-P:

- VWD → use VWF:RCo component
- Hemophilia → use Factor VIII component
